Science & Technology

ARCHITECTURE / INTERIOR DESIGN / MASTER PLANNING / ECOSERVICES

Commercial. Community. Collegiate. pK-12. Government. Healthcare. Hospitality. Religious.

Renovation. Residential. Science & Technology.

We're Science & Technology –

architects, interior designers, and environmental professionals committed to healthy, high-performance architecture for laboratory, technical, and mission critical spaces.

At Kirksey, we believe every building should be efficient, sustainable, and healthy for its inhabitants and for the environment. Through years of research and practice, we have become leaders in the delivery of projects to science and/or technology based companies and institutions in the state of Texas and beyond.
